

REACH/ROHS DECLARATION

Montecchio Maggiore, January 2019

In terms of the REACH Directive (Registration, Evaluation, Authorisation of Chemicals), as a plastic material transformation company, GAMM is not subject to any mandatory pre-registration or registration.

As for RoHS (Restriction on Hazardous Substances, Directive 2011/65/EU of 8 June 2011 and Delegated Directive 2015/863 of 31 March 2015), virtually all standard products available on GAMM catalogue are compliant with said Directive.

Still, a few exceptions do not meet the above mentioned directives, due to technology limits which are currently being investigated by manufacturers of raw materials, and which cannot be controlled by GAMM.
