

REACH/ROHS DECLARATION

In terms of the REACH Directive (Registration, Evaluation, Authorisation of CHemicals), as a plastic material transformation company, GAMM is not subject to any mandatory pre-registration or registration.

As for RoHS (Restriction on Hazardous Substances, Directive 2015/863/EU and 2011/65/EU of 8 June 2011, last updated on July 22nd, 2019), virtually all standard products available on GAMM catalogue are compliant with said Directive.

Still, a few exceptions do not meet the above mentioned directives, due to technology limits which are currently being investigated by manufacturers of raw materials, and which cannot be controlled by GAMM.

Best Regards
Uff. Commerciale
